Impulsive

proportional
symbolic

Instinctive
survival bond

Gen or motor

Kegan Consciousness

what you know

what you are
subject to

Vc está sujeito
à aquilo
que vc não
tem plena
consciência

1st one's reflexes

2nd one's impulses,
perceptions

3rd Needs, Interests, Desires

4th Mutualidade, relação
interações

5th self authorship, identity,
ideology

a dialética
entre o sujeito

Cognition levels

sensorimotor

Preoperational → conceptual, symbolic
⇒ ego

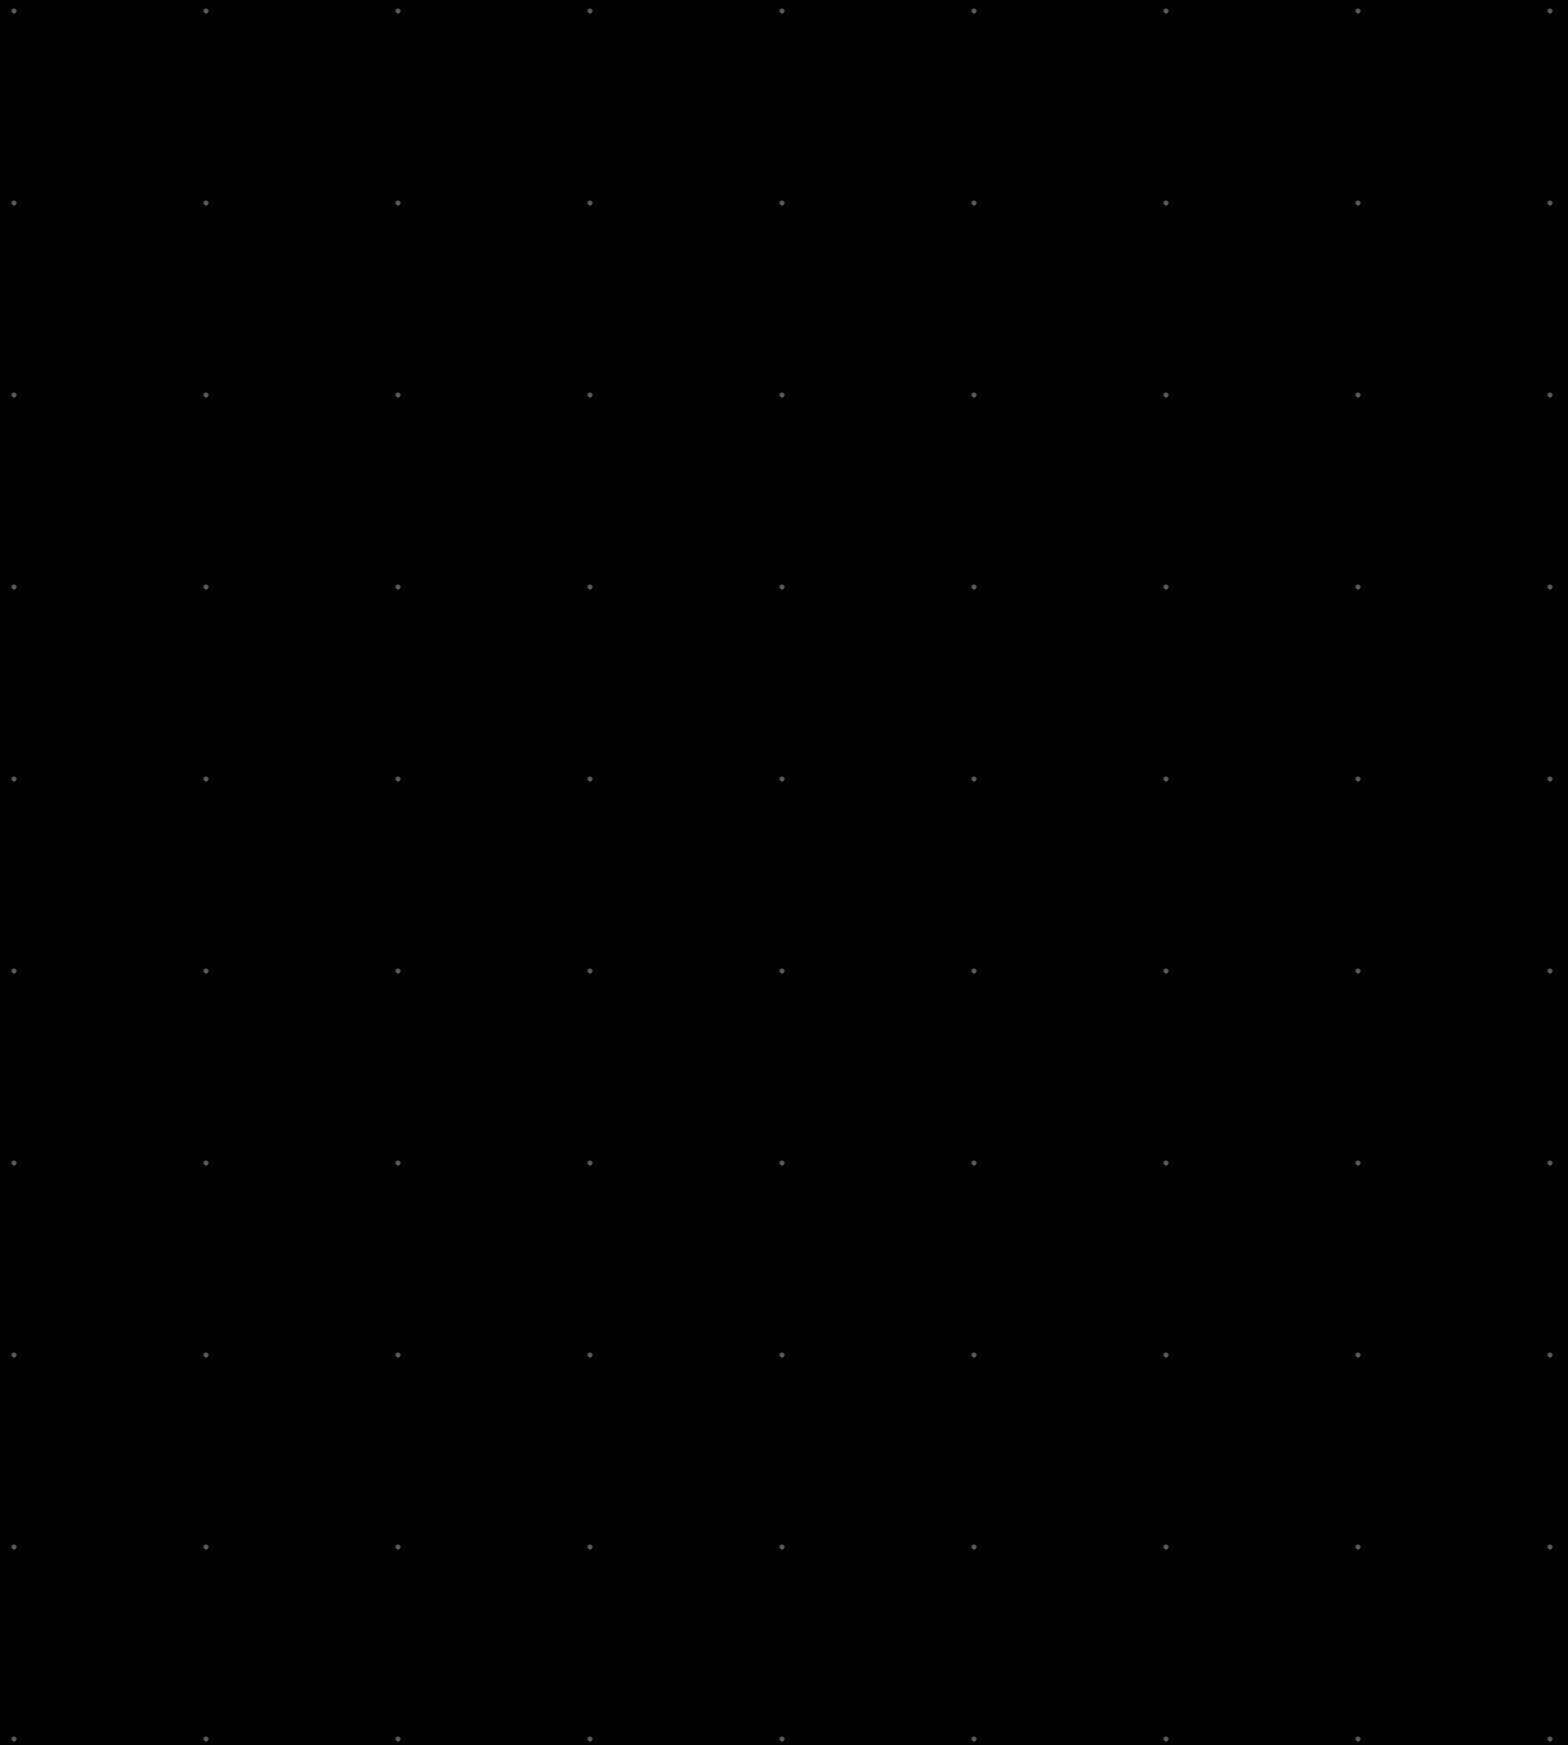

Concrete operational

Formal | operational

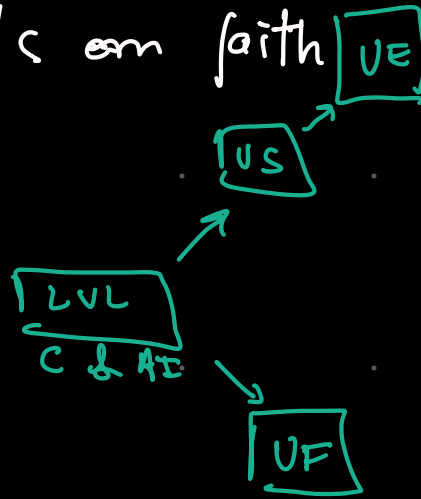

Pluralistic

Low-Vision - logic

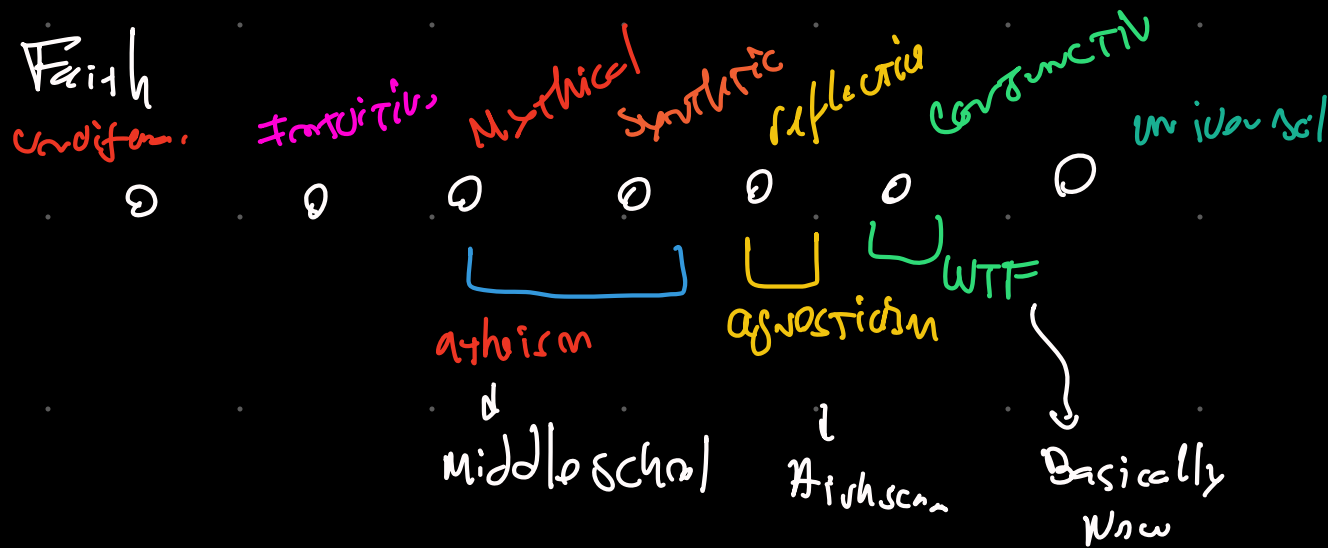

High Vision - logR

higher levels of cognitive and self identity stages are reached earlier in life than the respective stages in morals and faith

Mapping my path & compare formulator arguments from identical position
